

MEAL TICKET POLICY

On-call meal tickets will be issued by the office of the department for which you are taking call. The on-call meal program is a benefit which we request you use judiciously. There is a \$6.00 limit per meal per ticket. Expenditures above \$6.00 will be paid by you out-of-pocket. Your department will credit the cafeteria account with an amount appropriate for the number of call nights to which you will be assigned. This account may be accessed by use of your MMC ID badge when exiting the check-out line in the cafeteria. On-call meal allotments should be used by the resident, and not by medical student or attending.

Arrangements can be made to have meals deducted directly from your paycheck by using their ID badge.

You can set this up by visiting the Food Service Department and filling out an authorization form.
